Complete replacement of all parts from behind the converter

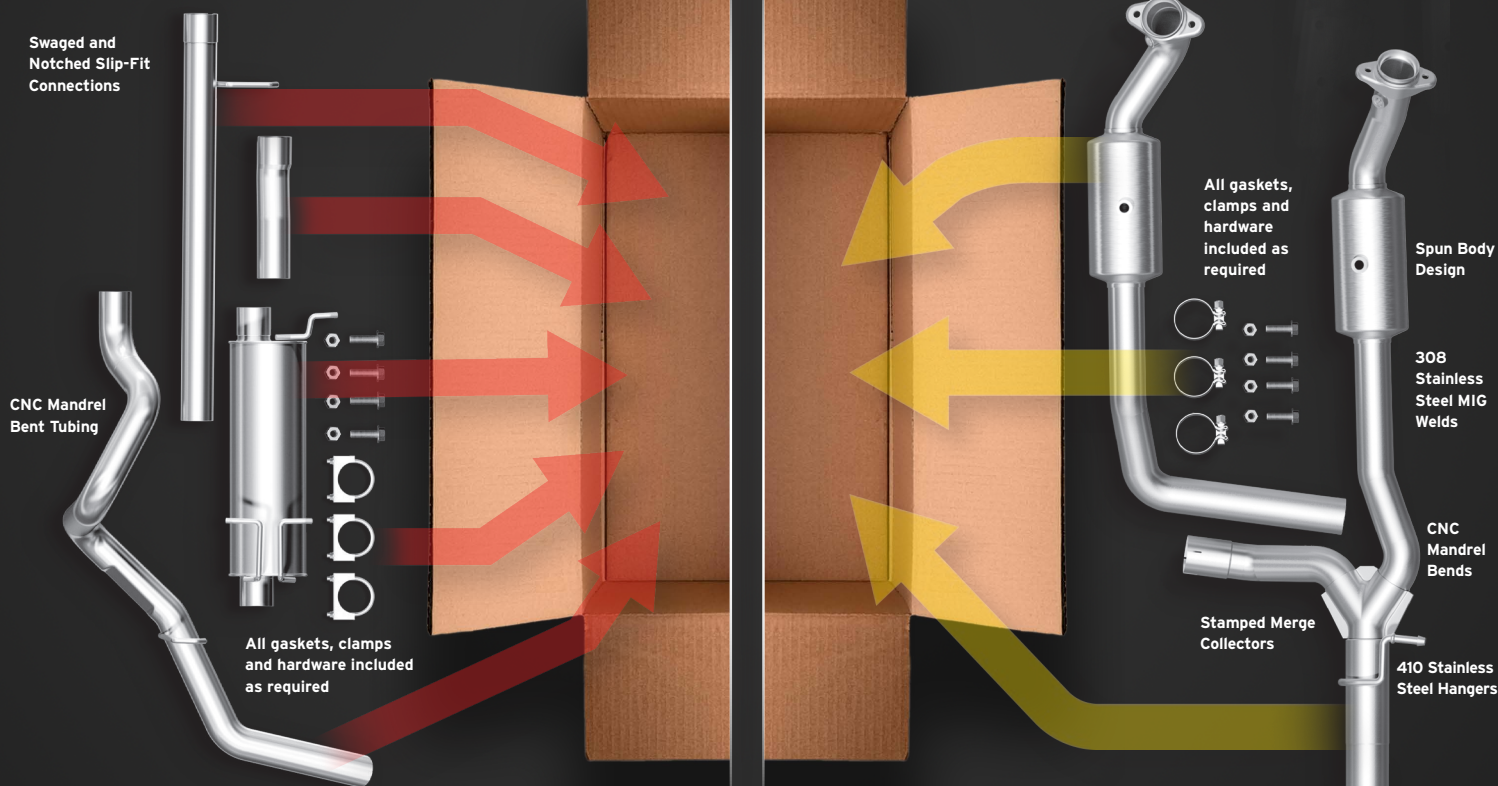

**ONE SKU**

All parts protected  
in one box

**MAGNAFLOW®**

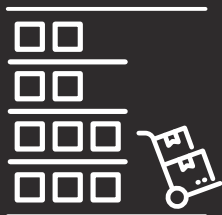

**CATALYTIC CONVERTERS**

Aftermarket Leading Coverage | Exclusive Direct-Fit Applications

## Product Protection

Enhanced packaging safeguards our MF Converters and BRExhaust components during transit.

## Cost Efficiency

Optimized dimensions for space saving storage and reduced freight shipping costs.

## Installation Advantages

Our multi-piece design simplifies installation, saving time and labor—ultimately contributing to overall cost savings.

## Trusted Quality

All exhaust products are engineered to meet rigorous emissions standards, ensuring reliability and long-term value.

In today's market, quality, fitment, and reliability are everything. MagnaFlow Group delivers all three—plus MAP protection to safeguard your margins. If you're ready to offer premium products that install easily, perform flawlessly, and keep your customers coming back, MagnaFlow Group is your answer.
